HOUSING AUTHORITY OF THE  
CITY OF SEDRO-WOOLLEY  
BOARD OF COMMISSIONERS MEETING MINUTES

Thursday, February 16, 2017

I. Call to Order

The meeting of the Board of Commissioners of the Sedro-Woolley Housing Authority was called to order by Vice-Chair Reta Stephenson at 10:45 a.m. on Thursday, February 16, 2017 in the Community Room of the Hillview Apartments, located at 830 Township Street, Sedro-Woolley, WA 98284.

II. Roll Call

**Present:** Commissioner Reta Stephenson (Vice-Chair), Commissioner Lee Elliot, and Commissioner Kacy Johnson

**Excused:** Commissioner Laurie Fellers (Chair)

III. Approval of Minutes

A. December 15, 2016 Board of Commissioners' Meeting Minutes

Commissioner Kacy Johnson moved for approval of the minutes, seconded by Commissioner Lee Elliot. The motion to approve the minutes unanimously passed.

IV. Consent Items

A. Approval of Voucher Report December 1, 2016 to January 31, 2017

B. Resolution No. 455: Authorize the Housing Authority of the City of Sedro-Woolley to enter into an Interlocal Agreement with the Housing Authority of the County of King for Consulting Services in connection with an Energy Performance Contract

*Resolution No. 455 was removed from the Consent agenda items and placed under Resolutions for Discussion & Approval for Board consideration.*

It was noted by the Commissioners that the total Expenditures reported was incorrectly calculated and shall be changed to reflect the actual balance of \$117,644.55.

Commissioner Kacy Johnson moved for approval of the consent agenda item with the modification, seconded by Commissioner Lee Elliott and the motion unanimously passed.

V. Resolution for Discussion & Approval

A. Resolution No. 455: Authorize the Housing Authority of the City of Sedro-Woolley to enter into an Interlocal Agreement with the Housing Authority of the County of King for Consulting Services in connection with an Energy Performance Contract

Connie Davis, Deputy Executive Director, presented Resolution No. 455 and provided background information on the Energy Performance Contract. Ms. Davis explained that the Interlocal Cooperative Purchasing Agreement between KCHA and the SWHA is to solicit and obtain an energy performance contract consulting services, as recommended with Johnson Controls.

All questions raised by Commissioners were addressed by staff.

Commissioner Kacy Johnson moved for approval of Resolution No. 455, seconded by Commissioner Lee Elliott and the motion unanimously passed.

**B. Resolution No. 456: Authorize changes to the Sedro-Woolley Housing Authority's Admissions and Continued Occupancy Policy**

Bill Cook, Director of Public Housing provided an overview of Resolution No. 456 and explained flat rents for the upcoming year. Mr. Cook mentioned that there was a Public Hearing prior to the Board meeting to gather public comment, and reported there were none. Mr. Cook also mentioned that none of SWHA Residents have chosen flat rent as an option.

All questions raised by Commissioners were addressed by staff.

Commissioner Kacy Johnson moved for approval of Resolution No. 456, seconded by Commissioner Lee Elliot and the motion unanimously passed.

**VI. Financial Reports**

**A. Financial Report for December 2016**

Connie Davis briefed the board on the Financial Reports as was contained in the meeting packets.

All questions raised by Commissioners were addressed by staff.

**VII. Housing Management Report**

**A. Housing Management Report for December 2016 & January 2017**

Kimberly Sayavong, Property Manager, briefed the Board of Commissioners on the Housing Report for December 2016 and January 2017 as was contained in the meeting packets.

**IX. Construction Update**

None.

**XI. New Business**

It was announced that Commissioner K.B. Johnson has resigned from the SWHA Board and that the Sedro-Woolley Mayor will appoint a new member to fill the vacancy.

## XII. Adjournment

There being no further business before the Board of Commissioners, the meeting was adjourned at 11:31 a.m.

## SEDRO-WOOLLEY HOUSING AUTHORITY

**TO:** Board of Commissioners  
**FROM:** Connie Davis, Deputy Executive Director  
**DATE:** April 13, 2017  
**RE:** **Energy Performance Contract - Project Briefing**

---

### **Introduction:**

An Energy Performance Contract, or EPC, is an important tool used by public housing authorities to achieve incremental funding for operations and capital. The EPC serves as an alternative financing mechanism, authorized by the United States Congress, to spur investment in cost-effective energy conservation measures (ECMs) in buildings or other government infrastructure.

SWHA already participates in an EPC. The initial EPC project, dating back to 2006, has had a major impact on the Authority's water and other utilities' usage and has, over its initial 11 years, produced roughly \$500 thousand in savings which have been used to pay for installed conservation measures, as well as other SWHA public housing operating expenses. HUD now allows existing EPCs, like SWHA's, to be extended from an initial twelve year contract to a twenty-year term. This provides SWHA with an opportunity to review and reposition its energy performance contract.

In February, the Board passed Resolution No. 445 authorizing the Authority to enter into an Interlocal Cooperative Purchasing Agreement with the King County Housing Authority (KCHA). The Interlocal Agreement was signed in order to use KCHA's procurement to retain Johnson Controls Inc. (JCI) for consulting services to SWHA in connection with its EPC. JCI was initially procured by KCHA in 2015 using the Washington State Department of Enterprise Services pre-approved list of energy service companies. JCI is currently providing KCHA with project management and construction services to install up to \$25.44 million in energy conservation measures in KCHA's public housing inventory.

The first step in an EPC is to have an independent energy contractor complete an investment grade audit (IGA). Based on the IGA, the contractor recommends a set of proposed ECMs which will generate utility cost savings over twenty years. Financing for the upfront installation of the ECMs is then sized upon these projected savings, and the savings are subsequently used to pay the debt service and related project costs. Measures may benefit both the owner and tenant. In the case of public housing, HUD

provides adjustments to tenant rent and to utility subsidies that allow savings accruing to residents to be included in the total savings projections for the project.

As SWHA's energy services consultant, JCI will structure the extension of the existing EPC and will optimize the savings contained in the first EPC (now dubbed EPC1). JCI may also propose a second EPC (EPC2) to install more measures that would last for a full 20 years. A more complete description of the project is set forth below.

**Background:**

In 2006, KCHA entered into an EPC (EPC1) with Siemens Buildings Technologies, Inc., which conducted an IGA and oversaw the installation of approximately \$4.0 million in ECMs at the KCHA and SWHA public housing portfolios. At the time the EPC1 was executed, EPCs were limited to a twelve year savings horizon. HUD subsequently allowed housing authorities to extend that time period to twenty years, so long as an independent energy contractor reviewed the ECMs to assure that they would continue to generate savings over the entire twenty year period. As part of this project, the term of EPC1 will be extended for an additional eight years. EPC1 resulted in an initial debt of which \$75 thousand was allocated to SWHA. All of that debt has now been repaid except \$32. This remaining debt from the initial 12 year EPC1 will be retired from project savings later this year.

In March 2015, KCHA, working with the Washington State Department of Enterprise Services (DES), entered into an agreement with JCI to review the EPC1 housing portfolio for possible additional energy savings measures, to conduct an IGA on selected KCHA and SWHA properties, and to optimize the EPC1 by both verifying existing measures and updating performance reporting to HUD. The first two steps were completed by the end of 2015. In 2016, KCHA commenced a second EPC (EPC2) designed to cover its public housing properties. As operator of the SWHA, KCHA is recommending that SWHA extend and optimize EPC1 and consider creating a second EPC this year.

DES will serve as the contract administrator for this project. The scope of DES responsibilities include: (i) providing contract documentation to ensure the parties have clear expectations for the project and to minimize owner risk; (ii) reviewing Applications for Payment from JCI and any subcontractors; and (iii) if new ECMs are installed, final cost reconciliation upon completion of the project.

**Financing:**

HUD regulations require debt as part of the EPC project structure and debt is required to be at a fixed interest rate. A plan for financing will be presented to the Authority after JCI delivers its project recommendations and savings projections. KCHA will consider lending the funds to SWHA for the remaining term under a simple note or the Authority could alternatively decide to enter into a municipal lease with a private bank. Last fall, KCHA made an internal loan to its own EPC and, based on JCI's

research into market rates for 20-year EPC financings, a fixed rate of 5% was adopted for that loan. The Board will be asked to approve the final debt structure prior to any commitment.

### **Construction Plan for any new ECMs:**

If the Authority decides to install new energy measures at SWHA sites, the installation of energy measures would be performed by subcontractors. KCHA would use its internal staff to manage these subcontractors in order to avoid paying JCI additional fees for construction management, project management and overhead/profit. A construction management fee, if any, would be negotiated between the parties prior to the start of construction. Construction could tentatively start as early as Fourth Quarter, 2017, but would more likely begin in early 2018. A construction schedule would be established with SWHA before an initial Notice to Proceed is issued.

Prior to commencement of work, the Authority's site maintenance staff would be invited to visit installed products in the KCHA portfolio to ask questions and become familiar with the measures. We would also suggest that an on-site resident and staff orientation meeting be held prior to construction start in order to describe the upcoming work and construction process, to train residents and staff on the new products and to answer questions.

No interruption of regular utility service at the buildings would be expected and no resident relocation would be required for this project (although an unforeseen failure of a pipe or other construction event could potentially create the need to temporarily relocate a household).

### **Risks and Mitigation:**

The most important areas of risk for this type of project relate to the achievement of projected utility cost savings and, in the event that new measures are installed, the cost of installation, the impact on on-going maintenance operations and project financing risk. These risk areas are described below, followed by mitigating circumstances:

Achievement of Projected Savings. Realization of additional cash flow, after repayment of any financing costs, is dependent upon the project generating energy savings that can be captured through the HUD subsidy calculations.

HUD calculates the public housing operating subsidy for each public housing site using a formula-based project expense estimate level (PEL); plus the actual cost of authority-paid utilities, typically water and common area electricity (this is the Utility Expense Level or UEL); and subtracting tenant paid rents. When a housing authority enters into an EPC, its UEL is frozen at its **pre-EPC** utility consumption level. This base remains frozen over the life of the project and is called the Frozen Rolling Baseline or FRBL. As actual consumption declines due to newly-installed measures,

the difference in utility costs between the actual and frozen consumption levels constitutes a part of the savings which are used to pay for the cost of the measures.

In the case of tenant-paid utilities, such as individual apartment electricity, tenants are provided an allowance that reduces the rent they pay to SWHA, such that their total tenant payment is approximately 30% of their income. Normally, if a tenant's utility bill were to decrease (due to conservation measures), their allowance would decrease and their rent would increase by the same amount. Instead, HUD allows an EPC housing authority to exclude any increase in rent in calculating subsidy eligibility. This HUD incentive results in continued subsidy equal to the differential between the old and new utility allowances, which can also be used by SWHA to pay for measures.

The amount of savings produced by these HUD incentives is sensitive to various factors that could become risks to additional project cash flow. These include the actual efficacy of the measures installed, tenant behaviors that may impact consumption, significant changes in utility rates (outside of the parameters utilized to calculate savings) and pro-rations in public housing operating subsidies by Congress. These risks will be anticipated in planning the project. Mitigations will be built into the project design and conservative assumptions will be utilized in projecting actual savings:

- A large amount of the calculated savings will be due to the Frozen Rolling Baseline incentive associated with the EPC1 measures that are already installed. SWHA is currently achieving these results, so unless consumption levels rise unexpectedly or utility rates actually decrease from 2015 levels, these savings are already known.
- Regarding the impact of inadequate Congressional appropriations: the project will be stress tested at an 85% pro-rate, which has been the average pro-ration over the past few years; the results will be presented to the Board at the next meeting. SWHA will enter into a Monitoring and Verification contract for the remainder of the EPC term to assure that measures are performing as planned and that future opportunities for savings are identified.
- KCHA will recommend that the project include the purchase of a third party guaranty to ensure that all costs of the project, including repayment of debt, will be covered by the savings generated. While a trigger of this guarantee is unlikely (and would mean no excess savings going to SWHA), it means that a surety, and not SWHA, would cover any unanticipated fixed costs.

Installation, On-going Operational and Financing Risks. There are a series of additional risks associated with the installation of new energy conservation measures, such as tenant dissatisfaction with the products, increased maintenance cost and financing risk. These risks will be reviewed with the Board if staff recommends a second EPC.

**Next Steps:**

JCI is currently analyzing the Authority's EPC1 and any specific measures that could be installed at the SWHA properties to increase savings. The Board will receive a subsequent presentation in June, at either a Special or Regular Meeting, to review the proposed project, including installation of measures, financing and projected savings as well as potential risks and mitigation. If a project is approved by the Board, JCI will prepare a submission for approval by the Department of Housing & Urban Development (HUD) of the EPC1 extension and potentially a new EPC2. The submission will be sent to HUD before the end of June, with expected HUD authorization by year end 2017.

## INTEROFFICE MEMORANDUM

**To:** The Board of Commissioners  
**Date:** March 28, 2017  
**From:** Jeff Friend, Financial Reporting Manager  
**Subject:** February 2017 Financial Report

Attached for your review is an unaudited year-to-date financial report as of February 28, 2017. This report shows year-to-date actual results, budgets and variances expressed in both dollars and percentages. The report, in a working capital format, details revenues, expenses, and other sources/uses of working capital. Working capital is defined as current assets minus current liabilities and is a metric that is used to measure the ability of an organization to meet its near-term obligations (less than one year). Each report in this format will reconcile the current period working capital to that of the prior period.

**Summary:** Year-to-date operating revenues and operating expenses are 2.9% over budget and 2.9% under budget, respectively.

### Operating Revenue Variances

	<u>Variance (\$)</u>	<u>Variance (%)</u>	
Dwell Rent	\$ 1,849	5.9%	●
Operating Fund Subsidy	489	0.9%	●
Other Misc. Income	61	19%	●
	<u>\$ 2,399</u>	<u>2.9%</u>	●

### Operating Expense Variances

	<u>\$ Var</u>	<u>% Var</u>	
Salaries, Wages & Benefits	\$ (2,723)	-16.3%	●
Occupancy Expenses	174	0.5%	●
Admin Support Expenses	515	3.6%	●
Other Misc. Expenses	(19)	-1.6%	●
	<u>\$ (2,053)</u>	<u>-2.9%</u>	●

- Green are positive variances
- Yellow are negative variances of less than 5%
- Red are negative variances greater than 5%

**Operating Revenue and Expense:** Year-to-date Operating Revenues and Expenses are very close to target. Salaries, Wages, and Benefits are under budget. Current staff assigned to Hillsvieview and Cedar Grove have fewer dependents than average; therefore, the medical benefit costs are lower. If there are no staffing changes, Salaries, Wages, and Benefits should remain under budget throughout the year.

**Non-Operating Revenue and Expense:** Non-operating revenues are under target as three unit upgrades were budgeted evenly throughout the year but none have been completed due to lack of vacancies.

**Working Capital:** The year-to-date working capital balance is \$229,240; the equivalent of approximately 7 months of operating expenses.

**Housing Authority of the City of Sedro-Woolley**  
**Statements of Financial Position**

## Housing Management Report

### Previous Meeting Concerns

#### Resident Issues.

The mold and air quality tests have been completed for both units and the residents were notified that there were no abnormal findings. The Hillsvew resident with the stipulation agreement has paid their account in full.
